

Our Licensee

The University of Utah looks to KUED for five primary services:

1. To promote the University's service activities in the community.
2. To appropriately recognize the University in our promotion and outreach activities.
3. To make a difference in the lives of Utahns by providing quality public television, including local and national programming, and outreach activities.
4. To provide video and multimedia production services for University departments.
5. To provide training opportunities for University students.

Also important to our licensee is the constructive and collaborative relationship we have with the Utah Education Network and KUER. This includes coordination of the educational services offered by KUED and UEN, as well as coordination of administrative support, technical support, digitally-delivered services and cross promotion of our services.
